Project Engineer at Structure Workshop

Qualifications

MEng Architectural Engineering, University of Leeds, 2015 (Second Class Honours, Upper Division)

Professional

Graduate Member of the Institution of Structural Engineers

Employment History

2016–Present

Design Engineer:
Structure Workshop

Andrew graduated from the University of Leeds with a Masters in Architectural Engineering. He went on to gain diverse experience in Costa Rica and the US working on various projects, including jungle cave conversion, festival art installation and residential renovation.

Notable projects include Second Home, Holland Park: the conversion of Richard Roger's 1970s studio into an ultra-modern co-working space; and Bicameral: a large-scale aluminium bifurcating artwork by Conrad Shawcross, on the former Chelsea Barracks site in London.
