Division

Jonathan graduated in Construction Management from the University of Brighton in 2011. After graduation, he worked as a Graduate Engineer for John Sisk and Son (Civil Division) at the London 2012 Olympic development.

In 2013 Jonathan began working as a Draftsman on the redevelopment of the Theatre Royal in Glasgow. During this time, he also worked periodically on theatre productions for a range of clients, including the National Theatre in London. He then worked as a draughtsman for The Light Lab, who specialise in bespoke lighting design and manufacture, before joining Structure Workshop in 2017.
