

### **Max Clayton MEng CEng MIStructE**

*Senior Engineer*

Max graduated in Structural Engineering and Architecture from Sheffield University, obtaining a MEng and RIBA Part I. He then stayed on as a postgraduate research assistant in the Computational Mechanics and Design Department, co-authoring two papers, before joining Structure Workshop in 2016.

He has gained a wide variety of project experience, such as the renovation of historic buildings (Aircon House), exposed multi-storey steel frames (Hackney Bridge), sustainable timber design (Black Barn), and large-scale public artwork (The Interpretation of Movement).

### **Key Recent Projects**

Hackney Bridge, Hackney Wick (Turner Works) 2020
